

DrillSIM Educator

The **DrillSIM Educator** is a classroom teaching platform combining 3 key visual elements of the **DrillSIM** training software suite to provide a visual understanding of drilling and well control operations.

This solution enables the instructor to explain a topic in a matter of minutes in 'real-time' using three linked displays of the Drilling Systems simulator;

- Drilling controls
- Surface graphics
- Downhole graphics

Operating Interface

- Interactive touch screens
- 2 x display systems

Software

- **DrillSIM** Educator module
- **DrillSIM** Suite manager option
